TOTEM RR231 STEREO UNIT BY MARIO BELLINI

\$19,000

## DESCRIPTION

A hybrid between a work of art and a stereo system, this design is a faithful reproduction of an original 1971 design by Mario Bellini. The stereo's bodies - detachable - open like wings from the central unit, allowing for an optimized sound delivery achieved thanks to the incorporation of a cutting-edge sound technology. The clever combination of a reflex woofer, a mid-woofer, and a tweeter characterize each hifi speaker. Unique piece crafted and silk-screen printed by master artisans.
