Brandoli

TR DESK

\$16,360

DESCRIPTION

This striking design part of the Brandoli Artwork Collection is the result of one of Roberto Brandoli's first and most visionary ideas. The wide glass top with beveled edges is sustained by a dramatic composition of thin iron tubes recalling the frames used to shape Italian cars in the '50s and '60s. Four slender legs fashioned of solid steel - two of which are equipped with a tripod base resting on flat, triangular elements - support the whole desk. Please ask the Concierge for customization in RAL color options.
