## TRABOCCO ZOOMORPHIC RED PITCHER

\$225

### DESCRIPTION

This whimsical, fish-shaped pitcher is a modern reinterpretation of the "bummulo malandrino", a pitcher from the Sicilian pottery tradition. Deftly handcrafted of ceramic and finished in matte red with a pleasant, soft rough texture, it is marked by a harmonious silhouette that conceals a playful mechanism: the pitcher must be filled from the base by turning it upside-down and then, once filled, simply re-positioning upright to normally pour the liquid from the spout.
