TRACCIA DESK LAMP

\$990

DESCRIPTION

This striking desk lamp is part of the Traccia collection and can be paired with the exquisite Traccia Floor Lamp. It was designed by Lorenzo Zanovello and made in white clay ceramic that was baked at about 2,000 degrees Fahrenheit; then varnished; and baked again at around 1,800 degrees. It was then hand painted in pure copper and baked for the last time at lower temperatures. The magnificent shaft that results is paired with an oval shade in white fabric. The light is an E27 for a 60 watt lightbulb.
