TRACCIA FLOOR LAMP

\$1,790

DESCRIPTION

This exquisite floor lamp was designed by Lorenzo Zanovello and made in ceramic using white clay that was worked by hand; baked in an oven at almost 2,000 degree Fahrenheit; and finally was varnished using environmentally-friendly products. The result is a striking piece whose shaft evokes the spine of an enormous fish, while the oval shade is in white fabric. The light is equipped for an E27 light of max 60 watts.
