TRAME 2-DOOR CABINET

\$8,640

DESCRIPTION

Part of the Trame Collection inspired by the ancient Kumiko woodworking technique, this superb cabinet represents the perfect union of tradition and innovation. Handcrafted of walnut-veneered wood, the superb geometric pattern that graces the doors' panels is digitally printed and made using computerized engraving, gradually disappearing as it travels up the length of the piece. Raised on a 20 cm-high base with four straight legs, the interior features two bottom wooden shelves and a top one in glass. Ask the Concierge about the option to add a small two-drawer section in the center.
