TRAME 2-DOOR SIDEBOARD

\$7,810

DESCRIPTION

Adding a sophisticated accent to modern and mid-century interiors, this sideboard from the Trame Collection features a clean-lined handmade frame with natural-finished walnut veneer. The 27 cm-high base has four straight legs that support a unit with two doors on one side, devoid of shelves along the interior, and two drawers on the other. The stunning geometric pattern on the front panels is inspired by the ancient Japanese "kumiko" technique. The image of these designs is digitally transferred onto the wood and executed with computerized engraving for a precise execution.
