No Smoking The Future

TRAY ROUND

\$940

DESCRIPTION

An elegant solution to serve afternoon tea or house permanently-displayed collectibles, this round tray was conceived with sustainability in mind, coherently with the brand's philosophy. The white lacquer used to hand-paint the minimalist frame in poplar blockboard is water-based, and the color-matching paper covering the inner bottom is a result of a recycling process. Fully customizable, it is also available with UL certification, please ask the Concierge for pricing.
