TREPERTRE DINING TABLE BY SERGIO ASTI

\$10,980

DESCRIPTION

Italian design and traditional craftsmanship are harmoniously combined in this exquisite table designed by Sergio Asti in 2004 for UpGroup. The majestic oval top and the base are made of black Marquinia marble with six supporting columns, three of black Marquinia and three of yellow travertine, for a distinctly chromatic contrast that is intriguing and elegant. The allure of the precious marble, with its unique textural character, combined with the refined design make this remarkable piece a one-of-the-kind that will stand out in any decor.
