## DESCRIPTION

A centerpiece, a bowl, or a vide poche, this superb piece of functional decor is sure to make an elegant statement, either alone or combined with the Portafiori Centerpiece for a dynamic effect. Versatile and stunning, it is ideal to display fruit or flowers to adorn a dining table, an entrance console, or a side table. Resting on a glass base reproducing a piece from the Medici's Florentine decor, the vertical element is crafted in exquisitely worked wood. The bowl above is in handmade Murano glass in a warm orange shade, reproducing the sinuous, textured silhouette of a shell.
