TRIPOLINO XS COFFEE TABLE BY CRISTINA CELESTINO

\$4,750

DESCRIPTION

This small coffee table is part of the Tripolino collection and can be displayed alone or combined with the other pieces from the same series for a dynamic effect. The structure and elliptical top are in Azul Macauba marble, but the supporting element is hidden under a cascade of fringes that add an interesting texture to the piece, while also providing a modern and ironic take of the iconic decorative element of passementerie. Both marble and fringes can be customizable. Please ask the concierge about details.
