TUCANO FLOWER HOLDER

\$160

DESCRIPTION

This superb piece of functional decor is a flower holder that will enrich the look of any room and will suit any decor, thanks to its timeless charm. It was entirely made in Capodimonte porcelain, according to traditions known since the middle of the 18th century and using a mix of clays local to the hills by Naples that create its distinctive, delicate, milky shimmer. Perched on top of the structure a lovely toucan adorns this piece that features neutral, elegant colors from tan, to brown, to black.
