## TUNA SUSPENDED LAMP

\$1,740

### DESCRIPTION

The Tuna suspended lamp was born from the idea of creating a stylized fish in mouth-blown transparent glass in multiple colors. The fish pictured here features amethyst colored glass however the piece is also available in steel, crystal, or amber. The surface texture of the fish was achieved using the famous rigadin technique which created a stripped pattern throughout the entire surface of the glass. The LED lights on the interior of the fish are 8,4 W and the metal structure suspending the piece is in burnished brass and the height can be adjusted.
