## TURQUOISE SIGNA VOTIVE HOLDER

\$150

### DESCRIPTION

Subtle yet elegant, this stunning votive holder combines traditional forms with modern aesthetic sensibility. Entirely handmade of ceramic in a striking turquoise glaze, this piece boasts a curved silhouette with a round body that slightly tapers to form a delicately flared mouth. The textured surface features vertical grooves with small horizontal engravings. Inspired by 19th-century Florentine straw objects, the soft contours complement the geometric accents, making it the perfect vessel for flowers, plants, tall candles, or homemade potpourri.
