## TWELVE ORANGE ARMCHAIR BY UTO BALMORAL

\$3,870

### DESCRIPTION

Inspired by the iconic 1960s Sacco chair, this exclusive armchair exudes a sense of relaxation and comfort, adding to the original design a rigid support base. The plush, round top cushion is padded with natural oil, officinal herb-based foam, and goose feather with a bright orange fabric cover. The birch and bamboo plywood base has a raised back and flared shape. The elastic drawstring around the cushion allows it to be shaped in different ways. This piece will fit harmoniously in any modern home with its balanced mix of natural materials, sustainable design, and functionality.
