### DESCRIPTION

Handcrafted of ceramic with an irregular round shape, this plate from "The Sixties" Collection boasts a masterfully executed abstract decoration that will enrich any eclectic or modern interior with its unique look. The intense colors, derived from cobalt, silver nitrate, and glass-ceramic frits, are enhanced by an iridescent, metallic glaze obtained with reduction firing at high temperatures, a technique used extensively by Carla Lega for all her objects. A statement piece on an entryway console, living room coffee table, or office desk, this piece makes a splendid gift on any occasion.
