**TWIST & LIGHT WHITE MOBILE SHELF STAND BY MARCELLO ZILIANI**

\$2,180

## DESCRIPTION

This spacious, modular, vertical unit is a true masterpiece: designed to display books, collectibles, plants and more, it is also a powerful low-consumption LED light fitting that can illuminate and create the perfect ambiance in any interior. Crafted of white-finished iron, five open rectangular elements rotate freely around the central illuminating column (10 cm in diameter) supported by a solid square base (6 cm high). The open shelves can move simultaneously to create different silhouettes that change the way the light is reflected and diffused in the surroundings.
