TWIST TABLE BY GIUSEPPE CHIGIOTTI

DESCRIPTION

Designed by Giuseppe Chigiotti, this elegant table was crafted entirely of Carrara marble, whose unique veins add a one-of-a-kind decorative accent to the smooth surface of the piece. Made up of two parts, the oval top and the central support, this table will be a superb addition to both a classic and a modern interior. The standout element of this unique design is the single leg, crafted using a man-made, seven-axis robot. The result is a delicate, fabric-like shape that gives the stone a stunning light and airy effect.
