## TYRON COFFEE TABLE

\$10,770

### DESCRIPTION

Part of the Tyron collection, this coffee table can be paired with the console for a cohesive effect, or displayed alone in a living room, as a stunning statement piece. The square shape of the top features round corners and is in wood with an ebony veneer and inserts in brushed brass. The dark stain of the wood strikingly contrasts with the warm glow of the metal and complements the two legs, made of brass - one of them featuring a marble decoration. The veneer of the top is also available in rosewood.
