Alba Gallizia

UBI OVAL WALL MIRROR

\$4,590

DESCRIPTION

A powerful accent to add depth and brightness to any room of the house, this oval mirror is encased in a rectangular frame made of black cocchiopesto. Composed of a mixture of lime, sand and marble fragments, this durable and water-resistant material was widely used by the Ancient Romans to build roads and infrastructures, yet it has an aesthetically appealing and smooth texture. This mirror is completed by a polished brass border (available also burnished) and two brass studs on the top corners to safely anchor the mirror to the wall. Cacciopesto color can be customized upon request.
