## UCCELLINO EARRINGS

\$190

### DESCRIPTION

This stunning pair of earrings are inspired by the eclectic elegance of 19th century jewelry. Their structure in nickel-free metal has a gold finish that adds a warm glow to its elaborate decorations, running around the perimeter of its oval and forming the pendant that hangs just below it. The top of the piece and the center of the oval are adorned with stones in glass with a striking black color, with a central decoration of a bird in gold finish for a playful and charming detail. An imitation pearl adds a contrasting accent to each piece.
