### UKIYOE FLAMINO RUG

\$2,070

#### DESCRIPTION

This hand-tufted rug will instantly enrich any interior with its delicate color palette and dramatic design inspired by the Japanese art movement ukiyo-e (literally "pictures of the floating world") celebrating everyday life and common people. Woven in a circular shape, the rug boasts alternating red and white stripes whose rigid linearity is punctuated by the bold silhouette of a swan in tones of white, light blue, and navy, for a dynamic textural effect. Made of 100% wool, this rug has a diameter of 2 meters.
