\$600

DESCRIPTION

A perfect complement to a minimalist- or industrial-inspired decor, this ceramic vase is marked by a bold, geometric silhouette inspired by the classic bottle shape. The black circular base supports a white body composed of two inverted cones topped by a long cylindrical shape in a delicate sage-green color. This exclusive design by Nathalie Du Pasquier (2018) will create a dynamic and eclectic display on any console or table when arranged with the other vases of the series, showcasing different shapes in sharp chromatic contrast.
