ULTRABOLD SERVING DISHES

\$335

DESCRIPTION

UltraBold is a collection of three ceramic serving dishes: flat plate, soup/deep dish, and salad/first courses bowl. Each element of the UltraBold collection is adorned with small risers which allow protecting the table from the possible heat of the plate. The peculiarity of these dishes is the soft and organic shape in contrast with the graphic signs that take inspiration from the world of typography. Made of matt white ceramic, these dishes are also stackable.
