### DESCRIPTION

Unique and eclectic, the decoration of this elegant plate will add a charming accent to a modern table, either displayed in multiples or combined with the other pieces with similar design, for an unconventional display of dream-like scenes depicted with charming flair. On the white surface of this ceramic plate, four figures with umbrellas are depicted facing away from the viewer, with on top of the umbrellas a hen and three chicks rest. A series of concentric red lines adorns the rim of the plate.
