UNI SPECIAL EDITION WITH DIAMONDS VELVET BY PIERRE FREY

\$2,480

DESCRIPTION

Modern and sophisticated, this chair is named after the most important goddess in the Etruscan pantheon. Designed by Pierre Frey, the rigor of its sculptural structure and geometric print on the cover is balanced by the cushy padding of the seat above it. The distinctive feature of this piece is its structure, forming an hourglass shape with the back and headrest. Its cotton velvet upholstery evokes the crossing patterns of the base with a series of mustard diamonds highlighted in yellow over a muted coral red background. Other cover colors are available, please ask the Concierge for details.
