## UNICORN SCULPTURE

\$4,105

### DESCRIPTION

A playful and modern interpretation of the traditional trophy, this sculpture is a stunning work of art, entirely made by hand without the assistance of electronic tools. This elegant piece creates the three-dimensional silhouette of a unicorn head using iron rods with round section finished using oil-synthetic varnishes for the glossy effect on the head and horn and to create the blue eyes and gray nostril of the animal. Unique and sophisticated, this sculpture will enliven a modern decor. Certificate of authenticity included.
