Elena Carozzi

UPUPE WALLPAPER

\$1,180

DESCRIPTION

Upupe is the latest creative project by Elena Carozzi in which hand-painted motifs and embroidery interact harmoniously on the silk satin support. A majestic array of red leaves is set on a dark background, creating the perfect frame for the perched hoopoe, an almost-extinct bird native of Afro-Eurasia whose embroidered zebra-striped wings and distinctive "crown" of feathers fill the composition with color. The outstanding manual work can be appreciated both when displayed as a single panel or in multiples. Price is per square meter.
