Ceramica Gatti 1928

V WHITE BOWL

\$470

DESCRIPTION

A stunning object of functional decor this sophisticated ceramic bowl will adorn an entryway console or dining table. The matte enamel finish in a delicate, snow-white color on the outside is a perfect counterpoint to an eye-catching polychrome glaze along the interior. The superb chromatic finishes are the result of complex technique involving three firings in the kiln to create the iridescent reflections.
