VANITY CONSOLE

\$5,520

DESCRIPTION

Featuring soft lines and rounded corners, this console is crafted of wood with a stunning lacquered finish accented by bronzed metal details that add a modern edge to a classic design. The rectangular top showcases a recessed panel with an elegant geometric pattern of converging lines and a wide border with horizontal carvings. The tall and slender conical legs have bronzed metal ferrules that connect with two metal elements - a semicircular slat in the front and a straight line in the back - adding visual intrigue and stability to the piece.
