Sbigoli Terrecotte Firenze

VARIO CON FIORI CENTERPIECE

\$510

DESCRIPTION

This generous-sized salad bowl can double as stunning centerpiece. It was entirely crafted by hand and boasts striking colors and a Renaissance-inspired design of concentric circles, highlighting the circular shape of the piece, with vivid hues, typical of the Tuscan majolica. This elegant piece was created in Sbigoli, a workshop in the heart of Florence, established in 1857, and will add a splash of color in an entryway, to display precious collectibles, or in a dining room to hold fruit or other food.
