VASE 6 - BLUE

\$185

DESCRIPTION

Glazed ceramic plant pot with a drainage hole and integrated saucer. The vases of the Cromatico collection are inspired by classical architectural orders, from which they take shapes and colors. Like drums of ancient columns, the vases can be superimposed on each other, creating ever new volumetric compositions, to be decomposed and reassembled freely. All vases are handmade by Italian artisans. They may therefore have small imperfections which represent their uniqueness and craftsmanship.
