VECTOR BOOKSHELF

\$13,835

---

### DESCRIPTION

Designed by Stéphane Parmentier, this stunning bookshelf will become the true protagonist of any interior, with its simple geometry and luxurious details. Inspired by the graphic and optical art of the 70s, particularly by Victor Vasarely's grid-like paintings, this piece is composed of four white leather shelves intersected by two vertical poles covered in taupe nappa leather. The visual geometry is enhanced by the suede panel in the same taupe color. Shelves are available also in printed calfskin and suede upon request.
