\$505

DESCRIPTION

A contemporary take on a classic side table, this striking design celebrates the aesthetic lightness and elegance of transparency by mixing a simple, modern material such as acrylic with prized Italian marble. Crafted by hand using traditional techniques to polish and enhance the surfaces, the white Carrara marble square top is supported by four laser-cut smoke-gray methacrylate legs joint at each corner with the UV-gluing technique to create seamless continuity between the parts. A must-have piece for any on-trend living area, this piece adds a weightless look and airy appeal to any room.
