VEIN SIDE TABLE WITH GRAY CARNICO MARBLE TOP

\$505

DESCRIPTION

A fine example of handcraft tradition, high quality, modern design, and innovative techniques, this side table of the Vein series encapsulates the balance between opposites: solid and transparent, light and heavy, modern and classic. A stunning gray Carnico marble top stands atop four clear methacrylate legs that become aesthetic and graphic elements in themselves. The pieces are connected with an invisible joint obtained with the UV-gluing technique that creates continuity between all the parts. The ideal accent piece to add display surface in any modern interior.
