VELVET ROSA DRINK & TRAY SET

\$1,740

DESCRIPTION

A work of understated elegance, this lavish drink and tray set elevates serverware to art. This work is handcrafted of hammered copper resulting in a soft-to-the-touch surface texture. The simple geometries of the oval tray and sleek design of the cup and pitcher add to the sets dynamic allure, from the bulb-shaped cup and the cylindrical pitcher with rod-like handle and angular details. The delicate, pinkish hue of the copper and the subtle, gold-plated interior of the cup are elegant touches. Functional yet captivating, this set will be an exceptional addition to any serverware collection.
