VELVET SOFA BY JOSEPH HOFFMANN

\$4,980

## DESCRIPTION

Available also in its three-seater version, this refined sofa was designed in 1911 to suit the Stoclet Palace's atrium.

Archilab's reinterprets the piece, adding more decorative white trimmings, which was quite limited in the original version and can be requested in several colors. The harmonious silhouette is defined by the wooden frame that is padded with polyurethane rubber and lined with polyester fiber. A lavish, non-removable black velvet (or leather on request) fabric covers the whole sofa, bestowing it a precious allure. The seat's height is 50 cm.
