VENICE CONSOLE

\$3,390

DESCRIPTION

Behind the clear-cut lines of this exclusive console designed by Marzia and Leo Dainelli lies an impeccable construction and craftsmanship that place glass at the heart of the design. Part of the Venice collection, this console features a striking base composed of three elements with a damask-inspired shape that are glued together on one side to form a single leg. The focal point in any entryway or living room, this piece is entirely crafted of 12 mm-thick tempered smoked glass with a demilune top.
