VERDE COLLINA SET OF 4 TILES #4

\$130

DESCRIPTION

A simple yet bold composition, this versatile majolica tile panel will transform any modern or traditional decor with its dynamic energy. Handcrafted in the Sicilian majolica tradition, these four tiles merge to reveal an exceptional design recalling the elegance of late Renaissance period. The symmetrical is distinguished by bold frond motifs in ivory on a moss-green background. Sublime scrolls frame the fronds, adding a touch of linearity to this sinuous composition. Showcased as a wall panel or flooring in a kitchen, bathroom, or entryway, these tiles will make a statement in any home.
