### VERONESE PINK VASE

\$11,160

#### DESCRIPTION

This exquisite vase is one of the most precious pieces of the Art Collection, which comprises objects of high aesthetic quality and craftsmanship. This vase is made of mouth-blown crystal treated with "sommerso" gold, and has an oval shape, a large footed pedestal base, and a small, flared rim. The mosaic detail is of rare beauty and quality, and was created using more than a thousand transparent glazes in a delicate geometric pattern. It is available in the colors of the 18th century Venetian period: Tiepolo light blue, antique pink (seen in the picture), or soft green. An outstanding decorative piece that will complement any decor.
