VERSI ICE BUCKET BY PATRICIA URQUIOLA

\$990

DESCRIPTION

This unique ice bucket is a splendid sculptural object of functional decor to be showcased on a formal table on special occasions. Entirely crafted by hand with a round shape, the base of white Carrara Gioia marble with fine feathery grey veining complements the light white and gray tones of the Fior di Pesco Carnico marble top, characterized by distinctive ivory and rosé veins. The handles have an eye-catching V shape and are arranged vertically along the slightly tapered top.
