## VERSO MARTE SCULPTURE

\$1,190

### DESCRIPTION

A true masterpiece, this exceptional sculpture embodies the timeless elegance and versatility of wood. The spherical sculpture is composed of layers of ash with its delicate straw color and paduka with its deep red hue, entirely hand-carved and polished to reveal the bold idiosyncrasies in the wood. Changes in color are a result of the natural oxidation, allowing the sculpture to age gracefully over time. This unique collector's sculpture will be a stunning display on a shelf in a living room, foyer, or private studio.
