VERTICAL FISH VASE

\$1,110

DESCRIPTION

A school of fish swims upwards in the decoration of this elegant vase. Masterfully handpainted, the iridescent fish are seemingly in relief against the blue background, their delicate profiles highlighting the sinuous curve of the vase tapering to a small, flared mouth. Celebrating the bright colors of the Mediterranean Sea, this piece is a stunning accent that can be paired with the Horizontal Fish Vase on a modern or eclectic console or bookcase.
