Serena Fanara

VERTIGO BEIGE AND BLACK VASE

\$220

DESCRIPTION

Part of the Vertigo collection, this vase is a celebration of new technologies and traditional craftsmanship. Crafted using a combination of marble powder and a biodegradable, plant-based plastic called PLA, it was then finished and painted by hand with black inside and a pearly beige outside. It can be displayed alone or combined with other pieces from the same series for a dynamic effect. It is also available in a larger size (38 cm x 27 cm H) or other measurements upon request - please ask the Concierge for details.
