## VERTIGO GREY MARBLE BOWL

\$2,640

### DESCRIPTION

This superb bowl was crafted using Billiemi grey marble with an insert in white Carrara marble. Its unique silhouette is inspired by the algae moving underwater, creating an enveloping shape, whose sinuous silhouette is dynamic and modern. Part of the Vertigo collection, this piece was made using CNC (Computer Numerical Control) and finished by hand by the craftsmen of the historic Sicilian masonry of Petram. Either alone or combined with the other colorful items of this series, this bowl will make a statement in any room.
