## VERTIGO GREY VASE

\$220

### DESCRIPTION

Part of the Vertigo collection, this vase was made of marble powder and PLA - a biodegradable plastic made from plants. Its sinuous silhouette has a movement to it, creating a dynamic tension that will enliven any room in the house. It was crafted with a 3D printer and then finished and painted by hand with a striking grey color outside and gold hue inside. It is also available in a larger size (38 cm x 21 cm H) or in other sizes upon request - please contact the Concierge for details and pricing.
