## VERTIGO YELLOW MARBLE BOWL

\$2,640

### DESCRIPTION

Either alone, as simple and striking piece of functional decor, or combined with others from the same collection, this bowl will be an eye-catching addition to a console, mantelpiece, or coffee table. Its enveloping shape with a curved silhouette is crafted using a new technique, Computer Numerical Control, and finished entirely by hand by the craftsmen of Petram masonry. The one-of-a-kind veining of the Giallo Reale marble, accented at the bottom with an insert of Billiemi grey marble, enrich the piece.
