## VESTALIA BLACK CANDELABRUM

\$2,500

### DESCRIPTION

Sculpted using a waterjet cutting technique, this stunning candelabrum is defined by a seamless and sophisticated design perfect for displaying candles on a console, dining table, or mantelpiece. The Grigio Carnico marble is cut into rigorous geometric shapes that fit into each other to reveal a dynamic silhouette. The candleholders are fashioned of chrome which strikingly contrast with the marble's bold white veining and deep black color. The traditional allure of marble combines with a contemporary, industrial design creates a stunning effect that will be eye-catching in any modern interior.
