VIA III MIRROR WITH BRUSHED BRASS

\$2,280

DESCRIPTION

This stunning floor mirror is an abstract interpretation of the network of roads in ancient Roman times. Crafted entirely by hand, it will be a sumptuous addition to a contemporary interior, leaning on a wall in an entryway, bedroom, or living room. Its rectangular silhouette has a wooden base enriched with a series of mirrored glass elements in an aluminum trim. Small inserts in brushed brass and green Guatemala marble add dashes of color and an intriguing decoration.
