VIAGGIATORI A RIPOSO SCULPTURE

\$5,070

DESCRIPTION

This arresting sculpture poetically evokes the world of the traveller, depicting in vivid details five human figurines resting on a globe symbolizing the world, both tired and in awe of the view in front of their eyes. Designed by Paolo Staccioli and made entirely in ceramic with a polished finish, this work of art can be used as a display piece in a living room or even a centerpiece on the dining table and can be paired with others from the same series.
